*Interactive Science* Jul 24 2022 Inquiry-based general science curriculum for the third grade featuring a text/workbook that students can write in.

**Beginning Reading** Dec 25 2019 Most children learn to read, irrespective of the method of instruction. Yet up to a fifth of children struggle with reading in their first few years at school. Unfortunately, those who struggle in the early years will continue to struggle throughout their school career. Yola Center offers a systematic, research-based guide to teaching reading in the first three years of school. Her aim is to ensure that teachers can work with at-risk or reluctant readers in the regular classroom as effectively as with children for whom reading seems to come naturally. Taking an analytic approach to reading, Beginning Reading shows how children can be moved through the key stages of early reading acquisition. Each chapter includes an overview of relevant research, practical classroom strategies and guidelines for lesson planning. Center adopts a balanced view of reading instruction, stressing the importance of phonological processes at the beginning of literacy instruction, as well as semantic and syntactic ones. This supports at risk children in regular classrooms, who are provided with the maximum opportunity to develop the accurate and fluent word recognition skills that are needed in order to extract meaning from print. 'At last! A book that combines an overview of recent research findings and their implications for the teaching of reading with sensible and practical suggestions for classroom teachers.' Morag Stuart, Professor in the Psychology of Reading, University of London 'This is an excellent book. It comprehensively reviews the research literature and shows how to apply it to the nuts and bolts of teaching reading in the first few years of school. It is a must-read for teachers.' Professor Tom Nicholson, University of Auckland, New Zealand 'This is the book that we have all been waiting for. It is the only book that I have seen that focuses on a theoretically sound approach to the teaching of reading with a focus on children who experience difficulties in the regular classroom.' Ruth Fielding-Barnsley, Queensland University of Technology 'It is indeed rare when a reading scientist can explain the intricacies of reading development, reading difficulties, and reading instruction with such clarity and comprehensiveness. Most importantly, Dr Center provides a masterful synthesis of the most current converging scientific evidence available that defines what research-based reading instruction is all about.' G. Reid Lyon, PhD, National Institutes of Health, USA

*Interactive Science* Jan 18 2022 Inquiry-based Earth science curriculum for the middle school grades featuring a textbook/workbook that students can write in. May be used as part of a sequence with the

**Interactive Writing Across Grades** Aug 01 2020 Interactive writing is a dynamic, unscripted instructional method in which the teacher and students work together to construct a meaningful text while simultaneously discussing the details of the writing process. Together they plan, compose, and review text in a variety of genres. The "interactive" piece involves group collaboration in planning and composing the writing through guided conversation and a unique "sharing the pen" technique where students do the actual writing. Interactive writing harnesses the natural interactions teachers have with their students as they compose a writing piece. It allows for real-time differentiation and tailored scaffolding. Interactive writing fits within any writing curriculum and can be adapted to your classroom's technology levels. Interactive Writing Across Grades: A Small Practice with Big Results, Pre-K-5 is your how-to guide, unpacking this powerful method step by step--and grade by grade. The authors help you figure out where and how interactive writing fits within your literacy framework, regardless of the grade you teach. In these pages, you'll find the following: An overview of the interactive writing method and how it fits into your balanced literacy program Concrete ways to launch interactive writing in your classroom to support both process and craft instruction Step-by-step guidance to implement the method with students of all ages Real classroom writing from every grade that shows what to expect at each phase of the process "Listen in on a Lesson" vignettes that demonstrate the type of scaffolding you can offer during interactive writing lessons Discover what makes interactive writing a particularly effective teaching practice that can support both emergent and fluent writers. Interactive Writing Across Grades can help you put this method to work in your classroom immediately. Grades PreK-5

*Science, Grade 1* Feb 19 2022 Interactive Notebooks: Science for grade 1 is a fun way to teach and reinforce effective note taking for students. Students become a part of the learning process with activities about living and nonliving things, habitats, states of matter, light, soil, weather, and more! --This book is an essential resource that will guide you through setting up, creating, and maintaining interactive notebooks for skill retention in the classroom. High-interest and hands-on, interactive notebooks effectively engage students in learning new concepts. Students are encouraged to personalize interactive notebooks to fit their specific learning needs by creating fun, colorful pages for each topic. With this note-taking process, students will learn organization, color coding, summarizing, and other important skills while creating personalized portfolios of their individual learning that they can reference throughout the year. --Spanning grades kindergarten to grade 8, the Interactive Notebooks series focuses on grade-specific math, language arts, or science skills. Aligned to meet current state standards, every 96-page book in this series offers lesson plans to keep the process focused. Reproducibles are included to create notebook pages on a variety of topics, making this series a fun, one-of-a-kind learning experience.

**Interactive Writing** Jun 11 2021 Interactive Writing is specifically focused on the early phases of writing, and has special relevance to prekindergarten, kindergarten, grade 1 and 2 teachers.
