Hydrogen: Its Technology and Implication Mar 28 2020 Volume II of this series provides detailed design information on systems necessary for the storage, transfer, and transmission of gaseous and liquid hydrogen. Cost factors, technical aspects, and models of hydrogen pipeline systems are included together with a discussion of materials for hydrogen service. Metallic hydride gaseous storage systems for the utility and transportation industry are covered in detail, and the design Dewars and liquid hydrogen transfer systems are examined. This series in 5 volumes represents a serious attempt at providing information on all aspects of hydrogen at the postgraduate and professional level. It discusses recent developments in the science and technology of hydrogen production; hydrogen transmission and storage; hydrogen utilization; and the social, legal, political environmental, and economic implications of hydrogen's adoption as an energy medium.

The Arabic Version of Tūsi's Nasirean Ethics Sep 14 2021 Naṣīr al-Dīn Tūsi's (d. 672/1274) Nasirean Ethics is the single most important work on philosophical ethics in the history of Islam. A fine example of medieval Persian-to-Arabic translation technique, this first edition carefully reproduces Middle Arabic elements that can be found throughout the text.

The Life and Times of Abu Tammam Jan 06 2021 Abu Tammam (d. 231 or 232/845 or 846) is one of the most celebrated poets in the Arabic language. Born in Syria of Greek Christian background, he soon made his name as one of the premier Arabic poets in the caliphal court of Baghdad. Abu Tammam vigorously promoted a new style of poetry that merged abstract and complex imagery with archaic Bedouin language. Both highly controversial and extremely popular, Abu Tammam's sophisticated verse epitomized the "modern style" (badi') that influenced all subsequent Arabic and Arabic-inspired poetry—an avant-garde aesthetic that was very much in step with the intellectual, artistic and cultural vibrancy of the Abbasid dynasty. In *The Life and Times of Abu Tammam*, translated into English for the first time, the courtier and scholar Abu Bakr Muhammad ibn Yahya al-Suli (d. 335 or 336/946 or 947) mounts a robust defense of "modern" poetry and of Abu Tammam's significance as a poet against his detractors, while painting a lively picture of literary life in Baghdad and Samarra. Born into an illustrious family of Turkish origin, al-Suli was a courtier, companion, and tutor of the Abbasid caliphs who wrote extensively on caliphal history and poetry and, as a scholar of "modern" poets, made

indelible contributions to the field of Arabic literature. Like the poet it promotes, al-Suli's text is groundbreaking; it represents a major step in the development of Arabic poetics, and inaugurates a long line of treatises on innovation in poetry.
