A New English Translation of the Septuagint Jun 30 2020 The Septuagint (the ancient Greek translation of Jewish sacred writings) is of great importance in the history of both Judaism and Christianity. The first translation of the books of the Hebrew Bible (plus additions) into the common language of the ancient Mediterranean world made the Jewish scriptures accessible to many outside Judaism. Not only did the Septuagint become Holy Writ to Greek speaking Jews but it was also the Bible of the early Christian communities: the scripture they cited and the textual foundation of the early Christian movement. Translated from Hebrew (and Aramaic) originals in the two centuries before Jesus, the Septuagint provides important information about the history of the text of the Bible. For centuries, scholars have looked to the Septuagint for information about the nature of the text and of how passages and specific words were understood. For students of the Bible, the New Testament in particular, the study of the Septuagint's influence is a vital part of the history of interpretation. But until now, the Septuagint has not been available to English readers in a modern and accurate translation. The New English Translation of the Septuagint fills this gap.

Healing and Society in Medieval England Feb 07 2021 Originally composed in Latin by Gilbertus Anglicus (Gilbert the Englishman), his *Compendium of Medicine* was a primary text of the medical revolution in thirteenth-century Europe. Composed mainly of medicinal recipes, it offered advice on diagnosis, medicinal preparation, and prognosis. In the fifteenth-century it was translated into Middle English to accommodate a widening audience for learning and medical "secrets." Faye Marie Getz provides a critical edition of the Middle English text, with an extensive introduction to the learned, practical, and social components of medieval medicine and a summary of the text in modern English. Getz also draws on both the Latin and Middle English texts to create an extensive glossary of little-known Middle English pharmaceutical and medical vocabulary.

The Ubiquitous Siva Volume II Apr 09 2021 This is a sequel to a volume published in 2011 by OUP under the title *The Ubiquitous Siva: Somānanda's Śivadṛṣṭi and his Tantric Interlocutors*. The first volume offered an introduction, critical edition, and annotated translation of the first three chapters of the *Śivadṛṣṭi* of Somānanda, along with its principal commentary, the *Śivadṛṣṭivṛtti*, written by Utpaladeva. It dealt primarily with Śaiva theology and the religious views of competing esoteric traditions. The present volume presents the fourth chapter of the *Śivadṛṣṭi* and *Śivadṛṣṭivṛtti* and addresses a fresh set of issues that engage a distinct family of opposing schools and authors of mainstream Indian philosophical traditions. In this fourth chapter, Somānanda and Utpaladeva engage logical and philosophical works that exerted tremendous influence in the Indian subcontinent in its premodernity.

Among the authors and schools addressed by Somānanda in this chapter are the Buddhist Epistemologists, and Dharmakīrti in particular; the Hindu school of hermeneutics, i.e., the Mīmāṃsā; the Hindu realist schools of the logic- and debate-oriented Nyāya and their ontologically-oriented partners, the Vaiśeṣika; and the Hindu, dualist Sāṃkhya and Yoga schools. Throughout this chapter, Somānanda endeavors to explain his brand of Śaivism philosophically. Somānanda challenges his philosophical interlocutors with a single over-arching argument: he suggests that their views cannot cohere--they cannot be explained logically--unless their authors accept the Śaiva non-duality for which he advocates. The argument he offers, despite its historical influence, remains virtually unstudied. The Ubiquitous Śiva Volume II offers the first English translation of Chapter Four of the Śivadṛṣṭi and Śivadṛṣṭivṛtti along with an introduction and critical edition.

The Summer Guest Jun 23 2022 What if Anton Chekhov, undisputed master of the short story, actually wrote a novel--and the manuscript still existed? This tantalizing possibility drives *The Summer Guest*, a spellbinding narrative that draws together, across two centuries, the lives of three women through the discovery of a diary. During the long, hot summer of 1888, an extraordinary friendship blossoms between Anton Chekhov and Zinaida Lintvayova, a young doctor. Recently blinded by illness, Zinaida has retreated to her family's estate in the lush countryside of Eastern Ukraine, where she is keeping a diary to record her memories of her earlier life. But when the Chekhov family arrives to spend the summer at a dacha on the estate, and she meets the middle son Anton Pavlovich, her quiet existence is transformed by the connection they share. What begins as a journal kept simply to pass the time becomes an intimate, introspective narrative of Zinaida's singular relationship with this doctor and writer of growing fame. More than a century later, in 2014, the unexpected discovery of this diary represents Katya Kendall's last chance to save her struggling London publishing house. Zinaida's description of a gifted young man still coming to terms with his talent offers profound insight into a literary legend, but it also raises a tantalizing question: Did Chekhov, known only as a short story writer and playwright, write a novel over the course of their friendship that has since disappeared? The answer could change history, and finding it proves an irresistible challenge for Ana Harding, the translator Katya hires. Increasingly drawn into Zinaida and Chekhov's world, Ana is consumed by her desire to find the "lost" book. As she delves deeper into the moving account of two lives changed by a meeting on a warm May night, she discovers that the manuscript is not the only mystery contained within the diary's pages. Inspired by the real friendship between Chekhov and the Lintvayov family, landowners in the Ukraine, *The Summer Guest* is a masterful and utterly compelling literary novel that breathes life into a vanished world, while exploring the transformative power of art and the complexity of love and friendship.

Roxolana in European Literature, History and Culture Dec 25 2019 This collection is the first book-length scholarly study of the pervasiveness and significance of Roxolana in the European imagination. Roxolana, or "Hurrem Sultan," was a sixteenth-century Ukrainian woman who made an unprecedented career from harem slave and concubine to legal wife and advisor of the Ottoman Sultan Suleiman the Magnificent (1520-1566). Her influence on Ottoman affairs generated legends in many a European country. The essays gathered here represent an interdisciplinary survey of her legacy; the contributors view Roxolana as a transnational figure that reflected the shifting European attitudes towards "the Other," and they investigate her image in a wide variety of sources, ranging from early modern historical chronicles, dramas and travel writings, to twentieth-century historical novels and plays. Also included are six European source texts featuring Roxolana, here translated into modern English for the first time. Importantly, this collection examines Roxolana from both Western and Eastern European perspectives; source material is taken from England, Italy, France, Spain, Germany, Turkey, Poland, and Ukraine. The volume is an important contribution to the study of early modern transnationalism, cross-cultural exchange, and notions of identity, the Self, and the Other.

Love in English May 30 2020 A fresh, joyful YA novel that is layered with themes of immigration, cultural identity, and finding your voice in any language. Sixteen-year-old Ana is a poet and a lover of language. Except that since she moved to New Jersey from Argentina, she can barely find the words to express how she feels. At first Ana just wants to return home. Then she meets Harrison, the very cute, very American boy in her math class, and discovers the universal language of racing hearts. But when she begins to spend time with Neo, the Greek Cypriot boy from ESL, Ana wonders how figuring out what her heart wants can be even more confusing than the grammar they're both trying to master. After all, the rules of English may be confounding, but there are no rules when it comes to love. With playful and poetic breakouts exploring the idiosyncrasies of the English language, *Love in English* is witty and effervescent, while telling a beautifully observed story about what it means to become "American."

Applied Linguistics for English-Spanish Translation Nov 16 2021 The aim of the present book is to give an overview of (and an insight into) translation, as well as an introduction to some of the major linguistic theories used to explain the task of translating, and to the main problems involved in English-Spanish translation. Contents focus briefly on the concept of translation, the main approaches applied to the theory and practice of translation, how linguistic paradigms have contributed to translation studies, the role of the translator and translation competence, the main theoretical problems and controversial issues (translatability vs. untranslatability, fidelity vs. fluency, equivalence vs. adequacy, etc.), translation strategies and techniques, practical problems in English-Spanish translation, translation and new technologies, and the evaluation of translation. Each chapter includes three theoretical sections dealing with the abovementioned issues, as well as a fourth section with suggestions for further readings, and a final fifth section with translation tasks and questions.

DISCOVERING EVE Jun 11 2021 A Christian novel with a psychological element, *Discovering Eve* is inspired by a true story. Eve travels a complex path in search of her own femininity-her heart- crushed since childhood by a harsh, abusive home life. Only by finding faith in God is Eve able to find her true heart and herself. Like the first Eve, some of us have lost our "Eden" and departed from God's heart. The difficult road to healing our wounded subconscious is found only in the One who created our heart. The author's desire is that every woman, at the end of her journey, will find her long-lost treasure -her own heart. This captivating book reveals how and why so many women struggle to discover their true identity. In women's hearts God has created a special beauty and power, which many have yet to understand. *Discovering Eve* is dedicated to all women who are looking for their identity as Daughters of the Most High, as well as those who want to free themselves from the destructive burdens of their past.

Teaching Writing to Children in Indigenous Languages Mar 28 2020 This volume brings together studies of instructional writing practices and the products of those practices from diverse Indigenous languages and cultures. By analyzing a rich diversity of contexts—Finland, Ghana, Hawaii, Mexico, Papua New Guinea, and more—through biliteracy, complexity, and genre theories, this book explores and demonstrates critical components of writing pedagogy and development. Because the volume focuses on Indigenous languages, it questions center-margin perspectives on schooling and national language ideologies, which often limit the number of Indigenous languages taught, the domains of study, and the age groups included.

Autobiographical Writing by Early Modern Hispanic Women Aug 01 2020 Women's life writing in general has too often been ignored, dismissed, or relegated to a separate category in those few studies of the genre

that include it. The present work addresses these issues and offers a countervailing argument that focuses on the contributions of women writers to the study of autobiography in Spanish during the early modern period. There are, indeed, examples of autobiographical writing by women in Spain and its New World empire, evident as early as the fourteenth-century *Memorias* penned by Doña Leonor López de Córdoba and continuing through the seventeenth-century *Cartas* of Sor Juana Inés de la Cruz. What sets these accounts apart, the author shows, are the variety of forms adopted by each woman to tell her life and the circumstances in which she adapts her narrative to satisfy the presence of male critics—whether ecclesiastic or political, actual or imagined—who would dismiss or even alter her life story. Analyzing how each of these women viewed her life and, conversely, how their contemporaries—both male and female—received and sometimes edited her account, Howe reveals the tension in the texts between telling a 'life' and telling a 'lie'.

The Oxford Guide to Literature in English Translation Apr 28 2020 Translation has been a crucial process in world culture over the past two millennia and more. In the English-speaking cultures many of the most important texts are translations, from Homer to Beckett, the Bible to Freud. Although recent years have seen a boom in translation studies, there has been no comprehensive yet convenient guide to this essential element of literature in English. Written by eminent scholars from many countries, the *Oxford Guide to Literature in English Translation* meets this need and will be essential reading for all students of English and comparative literature. It highlights the place of translation in our culture, encouraging awareness of the issues raised, making the translator more 'visible'. Concentrating on major writers and works, it covers translations out of many languages, from Greek to Korean, from Swahili to Russian. For some works (e.g. Virgil's *Aeneid*) which have been much translated, the discussion is historical and critical, showing how translation has evolved over the centuries and bringing out the differences between versions. Elsewhere, with less familiar literatures, the Guide examines the extent to which translation has done justice to the range of work available. The Guide is divided into two parts. Part I contains substantial essays on theoretical questions, a pioneering outline of the history of translation into English, and discussions of the problems raised by specific types of text (e.g. poetry, oral literature). The second, much longer, part consists of entries grouped by language of origin; some are devoted to individual texts (e.g. the *Thousand and One Nights*) or writers (e.g. Ibsen, Proust), but the majority offer a critical overview of a genre (e.g. Chinese poetry, Spanish Golden Age drama) or of a national literature (e.g. Hungarian, Scottish Gaelic). There is a selective bibliography for each entry and an index of authors and translators.

International Poetry Review Nov 23 2019 Although *International Poetry Review* (IPR) reserves space for works originally written in English, it emphasizes the English translation of works written in another language. The successes and failures of any translation arise from the complex relationship between author and translator, including their respective languages and cultures. Translations can even be thought of as rewrites, given that translators follow the seismic traces of an author's thought processes in the original text, then recreate them for a new audience. Translations recreate these moments in a new light for a new audience. The reader's relationship with the translator, then, depends upon trust. This issue of IPR is dedicated to translators, whose work provides this journal with its distinctive mark.

The Art of Ana Clavel Apr 21 2022 Ana Clavel is a remarkable contemporary Mexican writer whose literary and multimedia oeuvre is marked by its queerness. The queer is evinced in the manner in which she disturbs conceptions of the normal not only by representing outlaw sexualities and dark desires but also by incorporating into her fictive and multimedia worlds that which is at odds with normalcy as evinced in the presence of the fantastical, the shadow, ghosts, cyborgs, golems and even urinals. Clavel's literary trajectory follows a queer path in the sense that she has moved from singular modes of creative expression in the form of literary writing, a traditional print medium, towards other non-literary forms. Some of Clavel's works have formed the basis of wider multimedia projects involving collaboration with various artists, photographers, performers and IT experts. Her works embrace an array of hybrid forms including the audiovisual, internet-enabled technology, art installation, (video) performance and photography. By foregrounding the queer heterogeneous narrative themes, techniques and multimedia dimension of Clavel's oeuvre, the aim of this monograph is to attest to her particular contribution to Hispanic letters, which arguably is as significant as that of more established Spanish American boom and *femenino* women writers.

Corpora in Translation and Contrastive Research in the Digital Age Mar 20 2022 Corpus-based contrastive and translation research are areas that keep evolving in the digital age, as the range of new corpus resources and tools expands, opening up to different approaches and application contexts. The current book contains a selection of papers which focus on corpora and translation research in the digital age, outlining some recent advances and explorations. After an introductory chapter which outlines language technologies applied to translation and interpreting with a view to identifying challenges and research opportunities, the first part of the book is devoted to current advances in the creation of new parallel corpora for under-researched areas, the development of tools to manage parallel corpora or as an alternative to parallel corpora, and new methodologies to improve existing translation memory systems. The contributions in the second part of the book address a number of cutting-edge linguistic issues in the area of contrastive discourse studies and translation analysis on the basis of comparable and

parallel corpora in several languages such as English, German, Swedish, French, Italian, Spanish, Portuguese and Turkish, thus showcasing the richness of the linguistic diversity carried out in these recent investigations. Given the multiplicity of topics, methodologies and languages studied in the different chapters, the book will be of interest to a wide audience working in the fields of translation studies, contrastive linguistics and the automatic processing of language.

Why Do We Cry? Aug 13 2021 This thoughtful, poetic book uses metaphors and beautiful imagery to explore the reasons for our tears. In a soft voice, Mario asks, "Mother, why do we cry?" And his mother begins to tell him about the many reasons for our tears. We cry because our sadness is so huge it must escape from our bodies. We cry because we don't understand the world, and our tears go in search of an answer. Most important, she tells him, we cry because we feel like crying. And, as she shows him then, sometimes we feel like crying for joy. This warm, reassuring hug of a book makes clear that everyone is allowed to cry, and that everyone does.

Step by Step Nov 04 2020 This book is a course in contrastive linguistics and translation which introduces the basics of linguistic analysis as applied to translation. Translation is presented as a problem-solving activity and linguistic analysis is proposed as a useful methodological tool to identify a wide range of translation problems. The course adopts a method which starts with the translation of words and goes up, step by step, through the different levels of linguistic structure to the level of pragmatic context. Myriad examples and a wide variety of exercises enable readers to acquire and practise some of the most common strategies translators use to solve the problems encountered at the different levels of linguistic analysis. The book aims at providing students with the theoretical and methodological tools needed to reinforce their linguistic and textual competence in the languages involved and make adequate progress along the translation process. As theoretical tools, students are given an overview of basic translation concepts and linguistic tools central to contrastive linguistics and textual analysis. As methodological tools, students are presented with a working method that, at the beginning, will allow them to grasp the principles and strategies that govern general translation, and which they could later extrapolate to specialised translation.
